Seven-year-old David Caruso, wedged between the walls of two buildings, cries as firemen work to free him from the narrow gap in which he was trapped for nearly three hours in Chicago. The youngster, who became wedged while playing a game with friends, suffered only scratches on his head. Firemen chiseled out two feet of brick and concrete to reach him. (AP Wirephoto)

Plans Completed For Fire, Police Defense Activity

Manpower Inventory Is Underway in Counties; Provisions Are Announced

Plans for providing maximum assistance between counties and cities throughout New York state in event of an atomic emergency, and covering the detailed operations of both fire and police forces and their auxiliaries, were reported by Thomas W. Ryan, director of safety, to General Lucius D. Clay, chairman of the New York State Civil Defense Commission.

Already an inventory of all available fire-fighting equipment and manpower throughout the state is underway, and has been completed in all but a few counties.

The State Fire Mobilization and Mutual Aid Plan is being put into effect in the 62 counties, through a seven-region subdivision. There are 55 County Advisory Boards, comprising with local city and county civil defense directors in arranging for training, and the establishment of county fire mobilization and mutual aid programs.

Provisions of Plan
These plans include:
1. The establishment of a fire control center, operation of which is the responsibility of the county fire marshal.
2. The survey of communication systems and the establishment within each county of a fire service communication plan.
3. Providing of running charts to every department in the county, indicating the additional equipment and manpower necessary to meet an emergency, and to assure coverage for areas from which assistance has been dispatched.
4. The recording and maintenance of an inventory in order that suitable personnel and equipment may be made available to meet the emergency.

The establishment of agreements between neighboring County Fire Coordinators with the designated zones to assure inter-county operation of the fire service.

Conferences Held
State officials have recently held conferences with the New York Civil Defense Authorities, and with those of both Westchester and Nassau counties, to integrate the operations of the fire services and provide the city with the required additional apparatus and personnel to meet the emergency.

Arrangements have been made to provide additional fire protection for New York City from adjoining counties, and a mutual aid agreement with New Jersey is expected to bring further assistance from that state.

Plans have been established by the State's Safety Force (Fire) Representatives through the County Fire Co-ordinators, with all local civil defense directors, throughout the entire state. Specialized training of existing fire-fighting forces, made necessary by the State's civil defense program, will be conducted by 76 County Fire Instructors, whose course of instruction has been developed from consultations with recognized authorities, local and national, in the field of fire fighting. These instructors are being made available to all local civil defense directors.

Assistance will be given to local defense directors by the Division of Safety, in the organization of equipment and personnel for res-

Track Relocation Work Is Started

Work started this morning near the West Shore railroad station in preparation for relocating the tracks in conjunction with the Broadway crossing project.

A crew of railroad workmen began preliminary work for installing a switch for bringing the tracks around to the west of the crossing area. They will extend along Railroad avenue over the area where buildings were razed and rejoin the present route about 400 feet south of the crossing.

Four Ideas Given To Aid O. & W.

Eleven-County Group Seeks Ways to Keep Line Active

Utica, N. Y., Sept. 8 (AP)—An 11-county committee seeking means of keeping the bankrupt New York, Ontario & Western Railway afloat today offered four recommendations toward that end.

In a report forwarded to Federal Judge Edward A. Conger, the committee proposed:
1. Expansion of the railroad's traffic in order to reduce costs.
2. Acquisition of more rolling stock to provide for such expansion.

3. Acquisition of new capital.
4. A policy to regain the respect and cooperation of organized labor, the shipping public and other railroads doing business with the road.

Judge Conger, who is supervising the bankrupt line's affairs, recently received a petition by a group of bondholders to abandon the 544-mile line and liquidate its holdings. The railroad, which operates from Oswego, N. Y., to Weehawken, N. J., has been in receivership for 13 years.

The committee, representing the 11 counties which the road serves, was formed last June to drum up business for the road.
H. V. Owens of Utica, Oneida county member of the committee, said Conger had received the group's report and recommendations, "heartily agreed with the conclusions, and will continue to do all in his power to keep the railroad operating."

Owens said Conger assured him he would "use his best efforts to persuade the bondholders to withdraw their petition for abandonment of the line."

Arrangements have been made to provide additional fire protection for New York City from adjoining counties, and a mutual aid agreement with New Jersey is expected to bring further assistance from that state.

Plans have been established by the State's Safety Force (Fire) Representatives through the County Fire Co-ordinators, with all local civil defense directors, throughout the entire state. Dewey Will Battle Foes On Record

Drops '48 'Kid Glove' Style in Announcing Determination to Hit at Democrats

Hanley Accepts Senatorial Nominee Is to Work to Hold and Expand Control

Albany, N. Y., Sept. 8 (AP)—Thomas E. Dewey, whose kid glove, unity campaign for the presidency fizzled in 1948, will slug with the Democrats "on every street corner" to win a third term as governor of New York.

Dewey left no doubt today that he would swing from the heels at what he called the Democrats' "miserable record" as an Albany minority and the Truman administration's "continued mismanagement of our national safety."

The 48-year-old governor, told a dramatic closing session of the Republican State Convention last night at Saratoga Springs that "the only hope of peace" lies in a popular revolt against the Truman administration at the polls Nov. 7.

Dewey said the ballot box was the most powerful instrument in the world to tell the Democrats in Washington "we will no longer put up with excuses, incompetence and politics-as-usual."

The jubilant delegates roared their approval as the governor formally accepted a draft re-nomination which he had renounced 10 weeks ago in favor of retirement from public office.

"I accept your nomination with eagerness to do my share for our state and country," he declared.

Ready for Fight
Dewey, who attributed his June decision to retire partly to a run-down physical condition, appeared rested and fit, ready for the fight of his political life.

Dewey, who campaigned in every section of the state to retain Republican control in Albany with his resounding "team," to elect U. S. Gov. Joe R. Hanley to the U. S. Senate, and to snatch House seats from Democratic incumbents.

Indicating that he would fight to gain increased Republican representation in Congress, Dewey said:

"The only hope of peace is to send a message to Washington that we are sick of midnight reversals, sick of policies which invite war, sick of an administration which in five years reduced America from the strongest power on earth, put its tanks and ships and planes in mothballs."

"The only hope of peace, he repeated, lies in confidence among the free peoples that 'America has a strong and firm and continuing policy.'"

'Shamefulness' Exposed
"The situation in Korea has 'exposed the shameful condition of our national defense,' Dewey contended.

Hanley, accepting the nomination for the Senate, said he would "help hold and expand the Republican beach-head there."

He added:
"I know that we will have the

Allies Make Small Gains; Reds Regroup Their Forces

Russia Asks Vote on Red At Meeting

Proposal Vote Comes After Resolution Is Defeated to Denounce U. S. Air Action

Sneak Move Seen Effort Is Considered Attempt to Use 'Back Door'

Lake Success, Sept. 8 (AP)—Russia, slapped down in an attempt to get the United Nations Security Council to condemn "barbaric" U. S. Air Force bombing in Korea, prepared today to try and sneak Communist China through the U.N. back door.

Russian delegate Jacob A. Malik set the scene by maneuvering the council into voting to consider Monday a Soviet bid to invite a Chinese Red representative to sit in while the council considers Peiping's charges of U. S. bombings in Manchuria and aggression against Formosa.

The council voted yesterday, 7-3, to take up the question of Red Chinese participation in that debate at its next session. The United States abstained in line with its policy of letting other U.N. members decide the question of Red China's representation at Lake Success.

The vote in favor of the Russian proposal followed a 9-1 defeat of a Soviet resolution denouncing United States air action in Korea as a violation of the rules of warfare. Yugoslavia abstained.

Council consideration of Malik's proposal to invite Red China for the Manchuria-Formosa debate does not directly affect the Peiping government's Chinese Nationalist representatives in the U.N., but it creates a situation filled with international and domestic political dynamite for the American administration.

Views on Vote
A U. S. vote against the proposal might be interpreted as an attempt to muzzle the Peiping accusers; a U. S. vote for it might be viewed as a softening in America's opposition to the Chinese Communists.

Even if Malik's motion does not pass—and informed opinion here is almost equally divided as to whether or not it will—consideration of it will have delayed an American resolution proposing the creation of an Indian-Swedish commission to investigate charges of Chinese Communist charges of American bombings in Manchuria.

The U. S. has insisted that such a commission must start work at once before the "trial is cold."

During the bitter debate which preceded the council's rejection of Malik's resolution, Britain's Sir Gladwyn Jebb, council president for September, stepped into the Soviet representative's shoes.

He told Malik that "no one outside the Soviet Union—and perhaps there was some discreet surprise even there"—believed Stalin when he said in 1939 that France and Britain invaded Germany.

And when the Soviet prime minister asserts that the United States is the aggressor in Korea, Jebb declared, "nobody outside the Soviet Union believes him today."

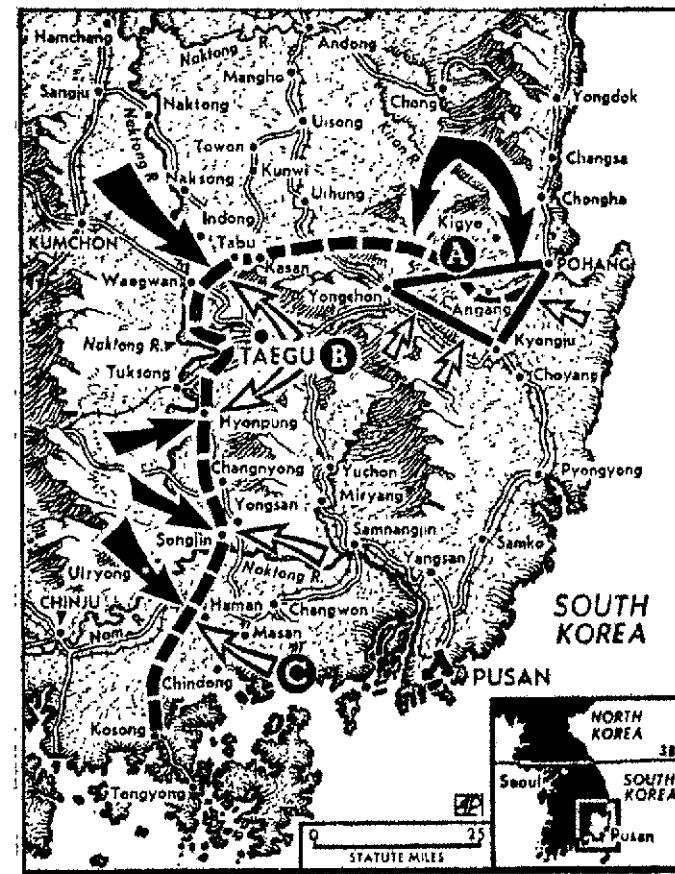

Jebb's statement followed a defense of the American and U. N. position by Deputy U. S. Representative Ernest A. Gross.

Gross said U. N. authorities had made every effort possible to protect civilians during air raids on North Korea and contrasted this with what he called North Korean violations of the rules of warfare.

The American delegate said that the U. S. had "indisputable proof" that Korean Reds had shot "unarmed and bound prisoners." He called this the "most vile of crimes."

Shortage of Bricklayers Is Delaying New School Work

U.N. Forces Hold

United Nations forces held firm, Sept. 7, against new Red attacks, containing a twin drive (A) in the north against the Pohang-Kyongju-Yongchon triangle. The allies threw back an assault north of Taegu (B). On the southwest front, Red forces kicked off a dawn attack against U. S. 25th Division troops west of Masan (C) but the Americans held after a slight penetration.

Truman Veto Could Bring G.O.P. Win, McCarran Says

Black Suggests Improved Living Future Koreans Might Be Prevented, He Says, if Help Is Given

Paris, Sept. 8 (AP)—The western world can relieve "one cause of future Koreans" by improving living standards in underdeveloped areas, International Bank President Eugene R. Black declared today.

Addressing the bank's fifth annual board of governors meeting, Black said "perhaps the most powerful single force shaping the course of history in our time is the awakening consciousness of the underprivileged masses of people that conditions of poverty, ill-health and ignorance in which they live are not preordained."

Black asserted that "we might not today be witnessing such social unrest and possibly not even hostilities" if there were not such a wide gap between standards of living in various parts of the world.

Black praised European nations' recent efforts to raise living standards, declaring "much progress is being made in hammering out new patterns of production and trade to replace and improve prewar patterns that cannot be restored."

Comments on Report
Black commented on the International Bank's annual report which was made public at the meeting, by saying "up to the present time we have made loans which total nearly a billion dollars to 17 countries in widely separated parts of the world."

"We can already begin to see the fruits of these loans. To mention but a few examples, bank financing is helping to produce steel in western Europe, to increase timber yield in eastern Europe, to enable Indian railways to break bottlenecks which had interfered with the effective distribution of goods, to augment substantially the output of hydro-electric power in the Western Hemisphere, and to expand food production in a number of countries."

Black's address was the highlight of public meeting of the bank's 49 member governors. All other sessions in the 11-day meeting will be closed until a final open session to elect the next Thursday. The bank's director-

Democrat Declares Statement Was Worst Blunder Possible

Washington, Sept. 8 (AP)—Senator McCarran (D-Nev.) said today President Truman's avowed refusal to sign his stringent anti-Communist bill, if Congress passes it, might lead to a Republican victory next November.

The Nevada Democrat said Mr. Truman's statement that he would not sign the McCarran bill if it was sent to the White House was "the most colossal mistake I have ever heard of being made by the President."

"I should be very unhappy to know that the President would veto this bill, and not the least of my unhappiness would be the fact that the people of the country want the bill enacted into law," McCarran told newsmen.

"This desire of the people in that respect might be very emphatically expressed in November."

'It Could Be'
The 74-year-old lawmaker, just renominated by Nevada Democrats for a fourth Senate term, was asked if a veto might mean

New York, Sept. 8 (AP)—The Liberal party—faced with a revolt in the ranks against a 100 per cent tieup with the Democratic state ticket—has nominated the Democrats' candidates for governor and U. S. senator.

The Liberal party's convention, however, has failed to support the rest of the Democrats' nominees—for lieutenant governor, attorney general and comptroller. Approval may come later, after party leaders talk things over.

Trustee Says Its Use by Fall of 1951 Is Threatened by Situation

Completion of the Washington School on the former Salter property may be delayed beyond the fall of 1951 unless more bricklayers are found for the job, it was announced at a session of the education board last night.

Trustee C. A. Baltz said the contractor was having difficulty in getting sufficient bricklayers and indicated the building might not be completed when schools are opened next year.

Bricklayers have been brought in from Glens Falls and other northern points, he said, and the contractor is hopeful that the west portion of the building can be closed by winter and work inside continued. If this cannot be done, prospects are dim for completing it by the opening of the next fall term, he said.

Furniture Is Delayed
The trustee, reporting on the new vocational school said the building was in use, but much of the furniture had not been received due to delays in deliveries because of labor trouble at the plants.

Temporary furnishings are being used, and the permanent furniture is expected within a week or two. The road to the vocational school is completed and he reported progress on the removal of trees and rock on the Andrew street side of the property.

At the conclusion of the first week of school, registration in the city's schools totals 4,557, a gain of 11 over a similar period last year.

Registration at the various schools, as reported by Superintendent Laidlaw to the Board of Education Tuesday night is:
No. 1, 38; No. 2, 252; No. 3, 207; No. 4, 200; No. 5, 331; No. 6, 433; No. 7, 368; No. 8, 333. Total in elementary schools 2,362.

There are 332 registered in the seventh grade at the M.J.M. and 339 in the eighth grade, a total of 671.

In the high school the registration is 1,924. This registration is greater than last year when the registration was 1,570. This figure includes those at the vocational school building. Back in

Fire Damages Bard Dormitory

Small Building Housed 10 Freshmen; Rooms, Roof Burned

A fire of undetermined origin damaged several rooms and the roof structure in the eastern end of a small dormitory at Bard College, Annandale-on-Hudson last night.

The blaze which started in a second-floor closet caused damage estimated at more than \$5,000.

Most of the 10 freshmen students housed in the dormitory were at meeting in another building.

Taegu Push Sags, Says U.S. Officer

Lack of Supplies, Men Seen as Hampering Reds; New Offensive Might Come

Civilians Moved Evacuation Is Ordered at Musan Port; Peak Is Seized

By RUSSELL BRINES
Tokyo, Saturday, Sept. 9 (AP)—Allied troops backed out slightly at opposite ends of the rain-lashed Korean warfront Friday, against dangerously rebuilding Red forces.

Little fighting took place on the whole 120-mile battlefield. Americans pushed back the Red for a new offensive smash.

A U. S. 8th Army spokesman said the Red drive by 50,000 men on Taegu, main allied base on the central front, had "petered out." Probably from lack of supplies and sufficient manpower for the present.

The Reds had pushed to within seven miles of Taegu before the U. S. First Cavalry Division and South Koreans broke the back of their drive.

General MacArthur's headquarters warned of a possible new offensive at the southwest end of the front.

The Red drive seemed greatest at the southern coastal approach to Musan port, chief allied base in Korea.

In Musan port, 27 air-mile west of Pusan, allied outposts ordered removal of civilian refugees in the wake of the drive.

This was a precautionary measure in the face of a reported offensive buildup to the west and threat of infiltration by Red agents ordered to stir up trouble among the 75,000 population.

Five thousand were evacuated from Musan in the first batch Friday.

Battle Mountain Retaken
Battle Mountain, a rugged peak about 12 miles northwest of Musan on the southwestern front, was retaken Friday by the U. S. 25th Infantry Division. It was the ninth time the peak changed hands.

Friday night the Reds blasted the mountain with an artillery barrage. American and South Korean troops gained a few yards, near the east crest in their efforts to close a five-mile gap in their lines.

A P. Correspondent Bill Ross at the front reported the U. S. and South Korean troops opened separate attacks through the murky weather to try to close the gap.

The hole remained after heavy battlefront patching had sewed together a bigger hole punched out by a Red breakthrough earlier in the week.

At dusk the doughboys had made little progress. They were held by hurried tenting plus the drenching rain which reduced air support to six sorties Friday.

Liberal Party Nominates Some, Endorses Others

Berle, declining the nomination, said his candidacy would hurt Lehman and "absolutely guarantee" Gov. Thomas E. Dewey's re-election.

The Liberal party's voters sometimes have decided close election contests between Democrats and Republicans.

In an unexpected development, the Liberal convention nominated these state candidates of its own: Lieutenant Governor James L. Donnelly, of Albany; the party's upstate director.

Attorney General—Ira J. Paley, former New York city councilman.
Comptroller—Harold Baer, who was assistant New York city comptroller under the late Mayor Fiorello H. LaGuardia.

These three nominations were made after Berle recommended that the three Democratic candidates be passed over temporarily until their backgrounds could be

Dewey Will . . .

right kind of bazookas and can out-gun, out-flight and out-think the political nondescripts at Washington just as we have in New York state.

Dewey made clear that he would advise to meet Democratic attacks on the eight-year record of his state administration.

"We have built a great, strong, progressive administration in Albany," he asserted.

"In every branch of progressive government we lead the nation," he continued. "In almost every step we have been obstructed by the Democrats in the Legislature and I propose throughout this campaign to make them eat every line of their miserable record."

Referring to Democratic convention charges that his administration had increased state expenditures, Dewey said:

"I plead guilty more than doubling state aid for education for the school children of this state and if the Democrats want to carp about that I will light them on every street corner in the state."

He said three different times he would battle the Democrats "on every street corner."

The challenges were coupled with Dewey's claims that his administration had:

1—Increased expenditures for the care of the mentally ill from \$42,000,000 to \$106,000,000 a year "it's the best money we ever spent."

2—Jumped appropriations for public health services from \$1,000,000 annually under the Democrats to \$18,000,000 today.

3—Increased or started 34,200 public housing units whereas the Democrats, he said, did not provide enough during their 20 years of state control "to take care of the tenants of a single slum block."

Dewey said his administration had enacted laws outlawing racial and religious discrimination in employment, education and publicly-owned housing projects.

Dewey accused the Democrats of "scuttling every such program" in Congress.

Dewey also lashed the legislature's Democratic minority for voting against his administration's sickness-disability benefits law enacted in 1949, and a 10-year farm-to-market road improvement program adopted this year.

Brown Purchases Roosa Building on Broadway

Harris Brown of Brown's Service, Inc., has purchased the adjoining Roosa's Taxi Service building at 781 Broadway.

Brown revealed that he has no "immediate" plans for expansion. Under the terms of the real estate deal, which was completed this week, he may not take possession before September 15.

The Roosa Taxi Service will eventually move its headquarters to Fair street in the space behind the Loft candy store on Wall street, between the J. C. Penney Company building and the Stuyvesant Hotel, Charles Roosa revealed.

Financial and Commercial

New York, Sept. 8 (AP)—Railroad stocks powered a broad advance in today's market.

Rail shares, following through yesterday's display of strength, climbed to a new average high since June 1946. Gains for individual issues ranged to around \$1 a share.

The carriers attracted the lion's share of business. Other groups advanced but on comparatively slim demand. A number of low-priced issues did a little better than average, some responding to corporate or industry news directly affecting them.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 60 Beaver street, New York city, branch office, 41 John street, R. B. Osterhout, manager.

Woman Is Injured As Car Leaves Road

Woodstock, Sept. 8—Mrs. Arthur H. Myers of the Glasco Turnpike, Woodstock, was injured about noon Thursday when her automobile went off the left side of Pichmann's Lane. She was taken to Kingston Hospital, where her condition was reported as "fairly good" today.

The accident was discovered by Mrs. P. L. Buttrick, who took

BABSON on BUSINESS

NEW HOUSES

New Boston, N. H., Sept. 8.—Many people ask me what I think of the present housing boom, how long it will last and whether it is wise to buy or build new homes now. Briefly, these are my conclusions.

Why The Current Boom?

During the first seven months of 1950, nearly 800,000 new non-farm dwellings were started in the United States. In July a new monthly record of 144,000 units was chalked up. What is the reason for this unprecedentedly high volume of new home construction? The answer can be summed up in just two words: easy credit. Of course, there are other factors, but it is this ready availability of mortgage loans guaranteed by the government which has created and sustained the housing boom.

What Is Wrong?

Government pump-priming is not bad in itself. In a complicated and highly industrialized economy such as ours, it may become a necessary device in the promotion of our national interest. However, I am opposed to the abuses of pump-priming. The powerful Housing Agency is fostering to day's dangerous housing boom. Through its easy credit terms, it is encouraging individuals to discard the principles of industry, thrift and resourcefulness which have made our nation great.

Easy mortgage loans are of dubious value if you take a long range viewpoint. They can prove disastrous following times like these when wages and prices are on an artificially high basis. I am greatly disturbed when I see young people getting involved in operations and commitments that can be justified only if these extremely favorable business conditions should persist. Some will lose the new homes which they so proudly and so easily acquired. Others will be able to keep them only at the price of difficulties due to expecting something for nothing.

Buy Larger Houses

Another aspect of the housing situation which distresses me is the size of the majority of the new houses now being built. In their zeal to keep costs at or near \$10,000 per unit, builders seem to have concentrated on too small houses, many of which have only four rooms. Certainly these latter are not very practical for family living in the American

tradition. Nor will they have a very good resale value.

G.I.'s and others, lured by the bait of no, or at best a small, down payment and the promise of easy mortgage terms, should take time to think of these purchases in terms of future needs and future values. Perhaps if they were required to proffer a substantial down payment, as were their fathers, they would be more discerning and more practical.

What Should We Expect?

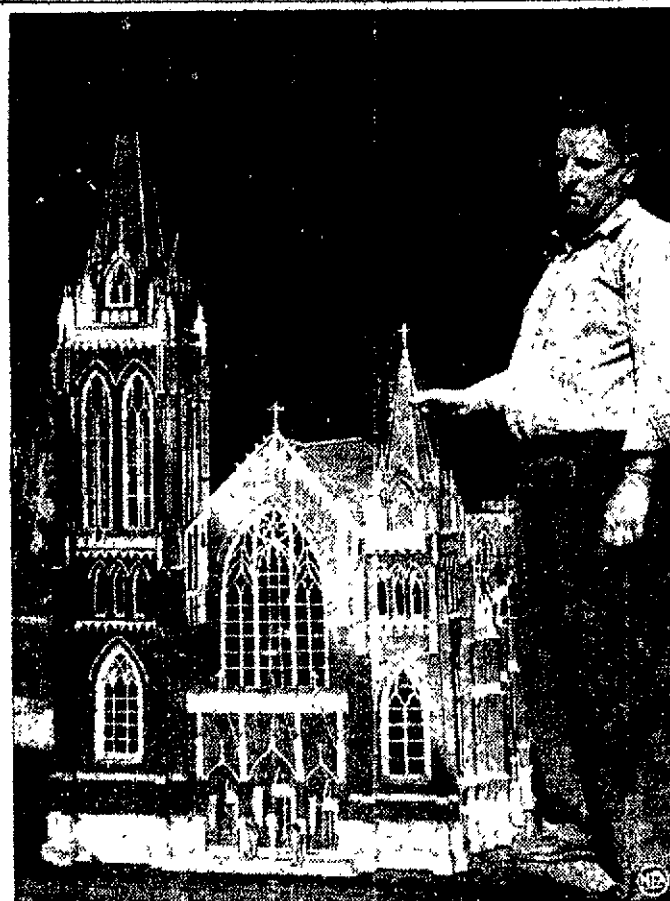

A sharp decline from the present peak activity in home building now appears imminent, owing to the Korean trouble. However, I believe that the accumulation of deferred housing demand would have been satisfied before long anyway. Recent tightening of federal housing credit and a very material increase in government stockpiling of strategic materials should hasten the return to a more normal market in new home constructions to provide for our expanding population.

It is probable that the present scarcity of housing in our larger cities may suddenly turn into a surplus. The day may not be far off when it will be difficult to sell some of these city units at any price because of the possibility of their being bombed and because of high city taxes and living costs. Also remember that today there is a home to every 4.1 persons; while the previous saturation point came in 1890 when the people were satisfied with one home for each 4.4 of population!

Don't Overlook Small Cities

I would not buy a house today in any of the larger cities of the United States unless it was essential that I live within the limits of one of them. Big city property valuations are too vulnerable. Yet, I would not hesitate to build or buy a house for my family's use with a 30 per cent down payment in the better sections of most small American communities. I am convinced that the population trend away from the larger cities will continue, thus decreasing big city real estate values.

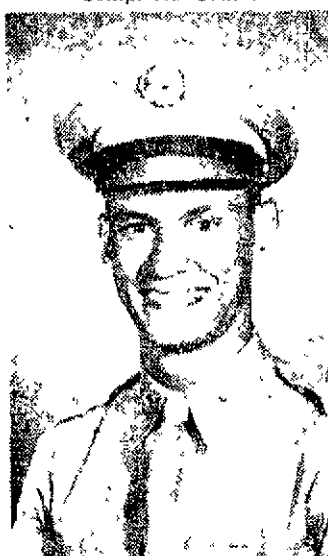

It also may be that an older type, well-built house in the best sections of these smaller cities is a better buy than a new house in the present crazy market. You may pay more for such a house than it originally cost to build, but you will still be getting it for about half of what it would cost to build today.

TESTAMENT TO FAITH—Paul Pietradak, of Chicago, proudly displays the balsu wood model he made of St. Michael's church of that city. Using a razor and a knife, Pietradak took five and a half years to finish the model, which contains a wealth of detail, even down to the miniature worshippers on the church steps.

Gillis Is Named As TB Assistant

John A. Gillis of Boston was appointed as health education assistant by the board of directors of the Ulster County Tuberculosis and Health Association at a meeting Tuesday night.

Gillis will assist Miss Katherine M. Murphy, R.N., executive secretary of the association. He has been serving in the local office at 76 John street as a trainee of the State Committee on Tuberculosis and Health since June 26.

The new assistant holds a B.A. degree in health and physical education from the Colorado State College of Education. He is married and lives with his family in Kingston.

At the board meeting Tuesday night, Miss Murphy reported on the recent chest X-ray survey held in Ulster county. Cooperating with the Ulster County Department of Health, the association assisted with the organization, promotion, publicity and clerical assistance in 15 communities. A total of 12,193 persons over 15 years of age had chest X-rays while the state mobile unit was located in this county, Miss Murphy said.

The Christmas Seal group initiated the X-ray survey as a demonstration program in the community of Shandaken in 1947. Since that time 32,167 county adults have been surveyed. The project has since been taken over by the county health department.

A letter of resignation from the board of directors was received from Dr. M. Elizabeth Moore and was accepted with regret. Dr. Moore has served on the board since 1936.

Other business to come before the meeting included the appointment of Edmund P. Rochford as chairman of the 1950 Christmas Seal Sale, which opens November 20. Reports of the heart committee, N. Jansen Fowler, chairman; and of the mental health committee, Dr. Edward F. Shea, chairman, were read and plans for cooperative projects in community and school health programs were discussed.

Still Has Troubles

Paris, Sept. 7 (AP)—A Brooklyn school teacher—trying to win back his estranged English wife—got into a fist fight with her brother, won her promise today to come back, but still faces opposition from her father. The dispute between 35-year-old Gerald Daynes and his wife Eunice centers around custody of their child, Laurel Susan, aged 3. Laurel vanished from her stroller in a suburban London street Tuesday, then showed up here with Daynes.

INSIDE AND OUT... ON WOODWORK AND WALL... IT'S FUN AND IT PAYS TO PAINT IN THE FALL!

No longer need painting be a long, drawn-out, messy and smelly job. New type finishes and new methods of application have changed all that! Now-a-days painting is fun... and fast. The Roller-Koater has revolutionized interior decorating. You paint and use a room the same day. Walls and woodwork hold their new color and beauty after repeated washings. One coat usually does the work of two old style applications. Deep colors are no problem. Proof?... Have you tried Sherwin-Williams paints lately?

OUTSIDE... ON WALLS! SHERWIN-WILLIAMS SWP HOUSE PAINT IS WEATHERED

for your protection against excessive loss of gloss, color fading, high dirt collection, rapid erosion, uncontrolled chalking, cracking, peeling, mildew and fungus.

*Every drop of SWP is tested for its ability to resist each of these types of deterioration before it is permitted to bear the Sherwin-Williams label.

Citizens' Committee Listed For Kingston Hospital Fund

Progress to Be Outlined at Dinner-Meeting on September 14 at the Governor Clinton

Progress to date in the project for the enlargement and modernization of The Kingston Hospital will be outlined at a dinner-meeting to be held Thursday evening, September 14, at the Governor Clinton Hotel. It was announced today by John D. Schoonmaker, Jr., president of the hospital's board of trustees.

Representative citizens from the many communities which rely on the facilities of The Kingston Hospital have been invited to be present at the dinner. Mr. Schoonmaker said the principal speaker will be Dr. George F. Chandler, retired Kingston surgeon who now resides in New York City.

Mr. Schoonmaker, who will preside, will discuss the building program which is to be undertaken at the hospital and outline the campaign being conducted to obtain \$550,000 by public subscription to make the project possible. Others who will take part in the meeting are Allan L. Hantson, chairman of the memorial gifts committee of The Kingston Hospital building fund, C. S. Rowland, chairman of the corporations committee, Jacob H. Tremper, representing John A. Hathmaker, chairman of the summer residents committee of the fund, and Dr. Douglas S. R.V.A. to Induct 1951 Officers

At the August 31 meeting of the Ulster County Memorial Post, Regular Veterans Association, it was decided to hold a dinner this month for all members and their families at which the 1951 officers would be inducted into office. The committee will be Dan Daigneault, Elmer Vance, Harry Van Wageningen and Commander George W. Nichols to arrange for Department and National R.V.A. visitors to be invited. The delegates selected to attend R.V.A. National Convention in Washington this month are Elmer Vance and George W. Nichols, with two alternates yet to be selected.

The post will make an effort to have the 1951 Department convention meet in Ulster county, if proper local support is procured. Pending reply from state officials as to the definite information this month on what would be required to locate convention in Ulster county, the matter was held in abeyance since considerable problems must be solved. The post realized that bringing a convention to local vicinity creates responsibility as the host that must be weighed seriously and requires real sales fact to convince state or other officials as to the advantages.

The service committee reported it had taken care of a number of veterans in local hospitals with gifts as well as a blind T.B. patient in a nearby veteran facility whose home in the south provided him with few visitors. Also as part of six projects planned for next two months is another hospital visitation, and procurement and repairing of toys by membership and some clothing for later distribution to the youngsters and dependents of ill service personnel and wartime veterans, in which every post member will participate in some manner.

Glidden Tour Set For City Saturday

Between 15 and 20 cars will make up the portion of the 150 International Glidden Tour which will pass through Kingston Saturday, September 9. It was announced today. The cars will come from the New York city area.

The following autos are expected to be in the local tour: Mercedes 1908, Simples 1910, Moon 1912, White 1912, Pierce Arrow 1914, Rolls Royce 1928, La-comobile 1918 and Ford 1915.

The tour, which is sponsored by the Veteran Motor Car Club of America, will actually start Sunday, September 10 at Lake Placid and will end in Rochester Thursday, September 14.

HABIT (This Week)
We heard last week about a young clerk in a strike bound shoe store who was having considerable difficulty satisfying a customer. One of the pickets outside watched the scene with mounting impatience then suddenly poked his head in the door. "Pest!" he said. "Show the gentleman Style 235." Duty done, he returned to picketing.

Benedictine Adds 2 New Instructors; 26 Students Enter

Two new faculty members have been appointed to the School of Nursing of the Benedictine Hospital and a new class of 26 students admitted, it was announced today. The new faculty members are Miss Mary L. Keating, R.N., B.S., as science instructor, and Miss Elizabeth A. Dunn, R.N., B.S., as clinical instructor.

Miss Keating is a graduate of the Benedictine Hospital School of Nursing, class of 1945. She was awarded the scholarship of the school that year, and later was graduated from the Catholic University of America, Washington, D. C. with a bachelor of science degree in nursing education.

Miss Dunn, a '43 graduate of the school, served in the Army Nurse Corps during the war and has had extensive experience. She was graduated from St. John's University, Brooklyn, with a bachelor of science degree in nursing education.

The new class, admitted Tuesday, includes the following students:

From Kingston: Harriet M. Boice, Elizabeth E. Burns, Theresa A. Carputo, Sandra C. Dolson, Marian J. Guadagnolo, Jacqueline Huestis, Elizabeth A. Jaffer, Kathleen E. Joyce, Helen R. Keegan, Helen M. Long, Joan P. McCord, Beverly J. Peterson, Phyllis M. Peters, Gloria J. Rich, Mary Daryl, Sheehan, Joan E. Tierney.

Also, Nancy E. Keenan and Donna M. King, Poughkeepsie; Jean M. LeHoud, Saugerties; Shirley M. White, Catskill; Patricia H. Microp, Ellenville; Catherine M. Curtin, Jackson Heights; Catherine M. Ouletto, East Islip; Gertrude M. Shulteis, Massapequa; Janice R. Underhill, Lynbrook; and Bernadette E. Traver, West New York, N. J.

On account of various changes in the hospital due to the construction which is now in progress, it was found necessary to convert the McDonough home which was situated on the hospital grounds, into an educational unit. The entire building has been renovated and provision made for the Nursing Arts Laboratory and Utility Room on the first floor. The second floor provides a lecture and class room.

Miss Doris N. Palmater Becomes Bride Of Alton E. Cole in St. James Church

Miss Doris N. Palmater, 17 Downs street, daughter of Mr. and Mrs. Charles W. Palmater, 56 Abbey street, became the bride Sunday of Alton E. Cole, son of Mrs. Alton E. Cole, 107 Abeel street, and the late Mr. Cole. The double ring ceremony, at St. James Methodist Church, was performed by Dr. Ralph Houston.

Soloist Daniel E. Coons of Stamford, cousin of the bride, sang "O Perfect Love" and "The Lord's Prayer." C. Franklin Pierce was the organist. The church was decorated with palms, candles and baskets of white gladioli. The pews were marked with white satin ribbons and bows.

Given in marriage by her uncle, Frank Bittie, Jr., the bride wore a gown of white nylon lace and satin with a high round neck, long sleeves, a button-down back, and a full skirt of white slipper satin, which fell dirndle style from the empire waist, and ended in a full length train. Her fingertip veil of illusion with a lace border was attached to a crown of white satin. She carried an arm bouquet of white roses and pom-poms, with swansons and ivy.

Miss Joan Wells, 753 Broadway, was maid of honor and Mrs. Harry Johnson, 208 Greenkill avenue, was bridesmaid. They wore matching gowns in aqua and white slipper satin, with light bodices, high-buttoned, Victorian necklines, tab collars, short puff sleeves and yokes outlined with a band of heavy self-dyed lace. The full, floor-length skirts fell dirndle style from pointed waistlines. Their headpieces were of soft

Little Gardens Club Has Poetry Reading

Mrs. Maxwell Taylor read poetry at a meeting of the Little Gardens Club Friday at the New Dorp Inn, Hurley. After Longfellow's "The Lilies," "The Buttercup," and "The Blue Bell," she read four poems by Edgar Guest and recited Bryant's "Violet" and "The Gentian." She concluded with Russell Lowell's "What is so pleasant as a day in June?" Refreshments were served, with Mrs. William Taylor presiding at the punch bowl. Hostesses were Mrs. Robert Murray and Mrs. William Niles.

Mrs. Hollister Sturges of Stone Ridge Returns From 'Air Safari' Through Africa

Roaring lions, 3,000 pygmies, and spectacular dances by seven-foot African tribesmen are taken quite calmly in the energetic stride of Mrs. Hollister Sturges of Fairfield House, Stone Ridge. Even a jagged spear and a knife, recovered in the course of an antelope hunt 250 miles from any doctor—couldn't stop her wholehearted enjoyment of a fabulous "air safari" through Africa via Sabena, the Belgian airline.

Allies Make . . .

two major attempts to reach Pusan.

Down there the Reds had built a bridge across the Nam river west of Masan and were ready to try shoving 40,000 troops across it.

Twenty-five miles north of the Masan front, U. S. 2nd division infantrymen threw back a 2,000-man attack on the northern flank of their positions west of Yonsan, 32 miles south of Taegu and east of the Nakdong river.

AP Correspondent Don Huft reported from that area that another 1,000-man Red attack was turned back by Americans who repulsed a major hill position.

British troops from Hong Kong beat off probing attacks in their sector along the central front. One British unit was supplied by air when it was cut off.

The Communists kept the allies guessing as to where they would strike with their next major offensive.

Thursday's fighting cost the Reds 3,100 casualties which were added to the 20,000 inflicted on the Reds in the southwest alone during a week of steady fighting.

The North Koreans have a 60,000-man force strung out from near Taegu southward to the coast.

A Moscow broadcast picked up in London quoted Red sources as saying the North Koreans had killed 15,176 Americans in two months.

Through Sept. 1, the U. S. Defense Department in Washington has reported 8,863 U. S. casualties.

Plans Completed

one squads, which may be used in their own area, for dispatched on call to the scene of the emergency. Co-operation in training this personnel also will be a part of the state program.

A basic training manual for use in instructing auxiliary police was included in Commissioner Ryan's report. The course of training has been designed so that it can be readily integrated into comparable instruction currently being given to police personnel, and has been streamlined in order to permit basic training of large numbers of men in a minimum of time.

Covered in Manual

The auxiliary training manual covers such subjects as: subversive activities, sabotage and espionage; air raid warning procedures; control of traffic and crowds; prevention of crime; panic and hysteria; first aid; evacuation of the danger area; protection of affected areas and of vital war production plants.

The five-phase plan of the commission's report were coordinated by R. Richter Townsend, Chief of the Bureau of Fire and the police section of the plan was organized by James R. Barrett, Chief of the Bureau of Police Activities. Supt. John Gaffney, head of the state police, co-operated in the planning of the training manual for auxiliary police and other phases of the overall police part of the state program.

Standardized training through the entire state, in both fire and police emergency procedure, will insure unified methods and give maximum efficiency of action wherever apparatus or personnel are sent to other danger areas from their own communities, to assist authorities and workers in the target area.

Masonic Temple Burns

Atlanta, Sept. 8 (AP)—A million dollar fire yesterday gutted the six-story Masonic Temple here, a landmark for almost half a century on downtown Peachtree street. The flames, their origin undetermined, broke out even as a remodeling crew worked to install a fire sprinkler system. A high wind fanned the blaze, which began on the top story of the masonry and steel structure. A chill rain had no effect on the flames. No lives were lost and only one person—a fireman—was injured. The entire stock of a shoe store and two dress shops on the street floor were lost.

38 Tanks Destroyed

Canberra, Australia, Sept. 8 (AP)—Air Minister Thomas White said today the 77th Squadron of the Royal Australian Air Force destroyed 38 Red Korean tanks during its first eight weeks of action on the United Nations battlefield. The armies were credited also with destroying 163 trucks, 40 other vehicles, seven fuel dumps and 12 bridges in a total of 1,100 sorties.

Models in Woodstock Fashion Show

Three of the models display new styles during Thursday's benefit fashion show for the nurse scholarship fund of the Ulster County Medical Society Auxiliary at the Woodstock Town House. Shown from left are Mrs. Elizabeth Knaut in a charcoal grey jumper with a reversible coat of grey and brilliant red; Miss Barbara Haver modeling a putty-colored evening suit of camelot wool, with black velvet trim and a "bottle jacket"; and Mrs. Gladys Robinson in a black jersey and velvet dress covered by a white "chinchilla" jacket. (Freeman Photo)

New Fashion Trends Are Noted During County Medical Auxiliary Show Thursday

Fall fashions were previewed yesterday afternoon by eight handsome young models before a well-dressed crowd of about 250 women at the Town House in Woodstock—for the benefit of the nurse scholarship fund of the Ulster County Medical Society Auxiliary which annually sends an Ulster county girl to one of the two Kingston nursing schools.

The styles were presented by Hilda Lightstone in cooperation with the auxiliary.

Fashion trends noted:

Much accent, for dressy clothes, on the camisole top—also known as the "seashell" which can be turned into a jumper for daytime wear by the addition of a long-sleeved blouse. There were several stunning examples of this type of dress, in black velvet, and velvet-and-jersey and velvet-and-taffeta combinations.

A tendency towards the slim silhouette, with skirts hanging straight, but not tight. The graceful full skirt, however, is still popular.

For sports and casual clothes, the side wrap was interesting, and evidently tweed skirts with sweaters dyed to match one of the colors in the tweed are going to be popular.

Charcoal grey and authentic clip plaids will be very smart.

There will be unusual pockets—two dresses had six—two at the hip bones, two at the ribs and two breast pockets. Another played up the "rib" pockets, by making them stand out slightly in the manner which is already familiar on certain skirts, creating a very novel effect.

Most evening dresses shown were quite short (skirts seem to be riding high again, with the ballerina length less featured this year) but one floor length evening skirt of lightweight gold wool was shown.

Very new is the collar pointed in the back.

Black sheer wool will be popular because it can be worn in the office, and then dressed up with jewelry or a handsome belt for evening wear.

The full sleeve was featured on several dresses.

"Evening suits" of wool are new and handsome, with removable jackets revealing the 1950-51 short-skirt-and-bare-top flair.

Rice Is Offered

Manila, Sept. 8 (AP)—The rice-short Philippines today offered South Korea 10,000 metric tons of rice. The cabinet approved a recommendation by President Quirino in response to a general appeal by United Nations Secretary-General Trygve Lie. The Philippines will import rice to replace the gift.

When some of her fellow voyagers started out for home, Mrs. Sturges and a few others flew on the Nairobi in East Africa. From there she went to Cairo, Naples and Belgium, and then flew home.

In Italy, she saw her nephew, Hugh Barbour Hutchison, Jr., of Washington, D. C.

The air safari was the first trip of its kind, and may lead to an opening of scenic sections of Africa to the travel-minded. It was arranged by J. Forbes Amory of Cambridge, Mass., and Washington, D. C.

Mrs. Sturges is chairman of the entertainment committee of the Ulster County Historical Society. Her daughter, Mrs. Losavio, has been visiting her.

She plans to remain at Fairfield House "until it gets cold," and then—she isn't sure what she will do then. She prefers a life without too definite plans, and full of exciting surprises.

All But Two Controlled

San Francisco, Sept. 8 (AP)—All but two of California's major forest fires were reported controlled today after weeklong fights in which \$10,000,000 worth of timber was destroyed and 150,000 acres was burned over. The two big fires still raging, in Stanislaus and Mendocino National Forests, cover 37,500 acres. Ernest L. Baxter, U. S. Forest Service dispatcher, said the Mendocino Forest fire was set by an incendiary.

22,000 Join Strike

Helsinki, Finland, Sept. 8 (AP)—Pulp mill workers numbering 22,000 to 24,000 joined the swelling ranks of striking Finnish workers today. The total number off the job now stands at about 100,000. The walkouts started August 28, when about 55,000 metal workers struck for higher wages. Premier Urho Kekkonen warned in Parliament yesterday that unless checked the strike movement might endanger the fulfillment of war reparations goods deliveries to Russia.

Cooperation Nabs Driver

The sheriff's office cooperated with local police yesterday in locating a "hit-and-run" car which slightly damaged the sedan of Roger Baer near 114 Lucas avenue early yesterday afternoon. A license number was forwarded to the police and the car was located by Sheriff George Smith and Clayton Vredenburg, county investigator, at Lawrenceville. No action was taken against its owner who agreed to settlement.

Truman Veto . . .

a Republican Congress next January.

"It could be," he replied.

The Senate, meanwhile, agreed to start voting on the anti-Communist legislation, beginning at 12 noon (E.S.T.) Tuesday.

Mr. Truman told his news conference yesterday the McCarran bill was a little worse than the Republican Mundt-Nixon Communist registration bill which passed the House last week under a Democratic label. He said he wouldn't sign it if it was sent to the White House.

The bill, which McCarran put together from five separate Senate and House bills, would require the registration of Communist political and front or-

ganizations; bar Communists from federal jobs and getting passports; put more teeth in laws dealing with espionage and sabotage, and pave the way for barring or deporting aliens considered to be subversive.

Mr. Truman had asked Congress only for more powers to deal with espionage agents and saboteurs. He has assumed other features of the McCarran bill as unnecessary, ineffective and likely to jeopardize the rights of individual citizens.

Perlmutter Blanks Jones Dairy, 5-0; Boulevards Lead by One Game

Reformed Outfielder Yields Only Five Hits

Shaughnessy Finals

	W	L	Pct.
Boulevard Gulf	2	1	.667
Jones Dairy	1	2	.333

Like it used to say in that famous advertisement about the man who sat down to play the piano, they all laughed when Manager Danny Perlmutter essayed a relief pitching role in the early phases of the City League race.

But the Boulevard Gulf skipper fooled them.

Yesterday he positively confounded them in the third and crucial game of the five-game Shaughnessy Finals between the Gulfmen and Jones Dairy.

Not only did he lick a high-priced importation for the pivotal second victory, but he actually shut them out, 5 to 0.

In Key Position

The triumph put the Boulevards in a commanding position to close out the series in today's contest, when they send Bill Tierney or "Link" Crosby against Tommy Fisher, Jones Dairy, on the other hand, must sweep the next two.

Perlmutter yielded only five hits and was amazingly effective in the pinches, while the Gulfmen assaulted Searfoss, who had licked them in the opener, with a surprise four-run thrust after two were out in the second inning. The game was halted by darkness at the end of six.

Perlmutter himself started the Boulevard victory march by driving the first lining. Passante had singled and advanced to third on a passed ball and an infield out. Then, with two down in the second, things happened in a hurry for Boulevard.

Sarino, Lafson and Crosby singled. Passante cracked a double and Alan Vogt followed with a one-baser. Searfoss was still looking for that third out when he walked Perlmutter and Schoonmaker slashed a safety to drive across the fourth.

run and leave the bases loaded on the third out.

Good in Clutch

Twice the Dairymen threatened but each time Perlmutter was equal to the occasion. Tommy Malnes and Charlie Neff singled in succession with one out in the fourth and Perlmutter met the challenge by inducing George Zadany to jam into a double play.

Another jam occurred in the fifth when Rod Whitaker singled and Searfoss doubled to put runners on second and third with one out. This time Perlmutter throttled the threat by getting Bernard on a fly to short right and the ever dangerous Johnny Schatzel on an infield out.

Four of the Boulevard players—Passante, Vogt, Perlmutter and Sarino—accounted for eight of the eleven safeties yielded by Searfoss, who fanned four. Perlmutter scattered his five hits among five different Jones players.

YOUNG PITCHERS WHO TWIRLED NO-HITTERS IN K.A.A. LEAGUES

Frank Secreto, left, and George Telepas, right, joined Don Haggerty of the Athletic Field as no-hit, no-run game pitchers in the 1950 Kingston Athletic Association's summer baseball program. Secreto is a pitcher, while Telepas has been a K.A.A. standout since the inception of the summer baseball leagues four years ago. Both are expected to play an important role in the revised baseball setup for next year. (Freeman Photo)

Branca Shines in Relief Role

By RALPH RODEN

(Associated Press Sports Writer)

The Detroit Tigers are back on top in the pulse-pounding American League pennant race today but they had one eye cocked on Steve O'Neill's Boston Red Sox, moving up fast on the outside.

Boston, which has just defeated the New York Yankees in two straight games, is the hottest team in the league. The millionaires have won 20 of their last 23 games, including 15 of 19 in their own Fenway Park.

Their two victories over the Yankees knocked the New Yorkers out of the lead and restored Detroit to the top by the skinny margin of two percentage points.

The snorting Sox are third, a game and a half behind.

The situation at a glance:

	W	L	Pct.	G.B.
Detroit	82	48	.631	—
New York	83	49	.629	—
Boston	82	51	.617	2 1/2
Cleveland	80	54	.597	4

Dodgers On Rampage

Creating almost as much furor as the Red Sox are the Brooklyn Dodgers in the National League chase. The Brooks have knocked out the league-leading Philadelphia Phils three straight times in the Quaker City to move to within 4 1/2 games of Eddie Sawyer's reeling Whiz Kids.

The big question facing the Red Sox is: Can they keep up their terrific pace on the road? Or will they tail off as in the last two seasons?

Boston's road record is 33-32 compared to 49-19 in their own ballyard.

Williams Returns

Both the Red Sox and Tigers had on their hitting clothes yesterday. The Sox outslugged the Yankees, 10-8, while the Tigers battled the Cleveland Indians to a slambang 13-13 10-inning tie that was halted by darkness.

The Red Sox pounded four Yankee pitchers for 12 hits with big Walt Dropo leading the way. Dropo drove home five runs on a double and his 31st and 32nd home runs.

Ted Williams of the Red Sox made his first appearance since he was injured in the All-Star game and received a tremendous ovation. Ted pinch hitting in the fifth was intentionally walked.

The Tigers waged an uphill battle to tie the Indians. The Indians jumped on Art Houtteman for seven runs in the first inning.

Detroit came right back and disposed of Feller in their half with four runs and squared matters at 7-7 at the end of the fifth.

The Indians entered the eighth leading, 11-9, but Hoot Evers socked a two-run homer to send the game into overtime. Larry Doby clouted a two-run homer for Cleveland in the top of the 10th but the Tigers came right back to tie on a fly ball and pinch-hitter Charley Keller's single. Evers pounded two triples, a double and single in addition to his homer.

In other American League games Dick Starr pitched the St. Louis Browns to a 6-0 victory over

Uncle Sam Claims Simmons' Fireballs

Philadelphia, Sept. 8 (AP)—If Curt Simmons does any more pitching this year it'll probably be for Uncle Sam's Army.

The Philadelphia Phillies' ace southpaw from Egypt, Pa., will leave Sunday along with his detachment of the 28th Infantry Division for Camp Atterbury, Ind. The division was inducted into federal service last Tuesday.

Simmons leaves for the service with a record of 17 victories and eight defeats.

Branca Shines

A brilliant relief stint by Ralph Branca in the eighth and ninth featured Brooklyn's 3-2 conquest over the Phils in a night game at Philadelphia.

Branca relieved winner Carl Eschke in the eighth inning after Richie Ashburn tripped to begin the frame and promptly struck out Willie Jones and Del Ennis and got Jack Mayo to foul out. He nailed the Phils in order in the ninth. Ennis homered to account for both Philadelphia runs.

The third-place Boston Braves also gained ground by stopping the New York Giants, 6-4.

Cincinnati edged Pittsburgh, 6-4, Ralph Kiner slugged his 43rd homer for the Pirates.

Bob Rush pitched Chicago to a 4-2 victory over the Cards at St. Louis. Hal Rice got both Card hits, a fifth-inning single and eight inning homer.

Troy, N. Y.—Hurley Sanders, 159, Newark, outpitched Gene Buffalo, 152, Philadelphia (8).

Brooklyn—Billy Murphy, 135 1/2, Brooklyn, outpitched Johnny Kamber, 132 1/2, Millburn, N. J., (8).

Ted Kroll Paces Reading Open

Reading, Pa., Sept. 8 (AP)—Thirty-one-year-old Ted Kroll, a 12-year veteran of the golfing wars but always an also-ran, was the man to beat today as the nation's leading golfers began play in the second round of the \$15,000 Reading Open.

The 6,356-yard Berkshire Country Club layout is a putter's paradise and if Kroll can control his putter today as well as he did yesterday, he'll be far enough ahead by nightfall that he'll be well nigh impossible to catch.

Kroll admitted "I was putting pretty well" as

Union-Fern 51st Anniversary

Charles Fabiano, manager, Edward McSpirt and Norman Sherry are shown, left to right, in front of a huge poster proclaiming the 51st anniversary of the Union-Fern's foundation.

51st Anniversary Of Union-Fern

Union-Fern's Kingston store, approaching its own fifth birthday this week is joining the chain's other stores in celebrating the 51st anniversary of the organization that grew from a small shop in Troy to a full-fledged chain of retail outlets in New York and Massachusetts.

The Kingston store opened in November, 1945, becoming the seventh store in the chain that traces its history back to 1899. The former L. S. Winnie & Company hardware store at 328 Wall street was taken by the Union-Fern Inc. in that year and has since expanded upward and outward into adjoining stores above ground floor level—giving its proprietor claim to six floors' of merchandise.

The chain's local store employs nine persons, all local residents. The manager is Charles Fabiano, also a local man, who joined the Union-Fern family five years ago after a stint in the U. S. Navy. In the firm's tradition, he started as a junior salesman and worked up to manager, a post he assumed this year with the transfer of Matthew Morgan to a managerial post in Utica.

To mark the anniversary, two window displays of appliances were put in this week at the Central Hudson Gas and Electric Corporation building on central Broadway. The Union-Fern store itself is plastered with posters, and each employee wears a button with numerical "51," proclaiming the 51st anniversary sale.

Store managers are encouraged by the firm to take an interest in civic affairs and the Kingston store has on many occasions lent its windows to publicize various drives and has cooperated with merchandising classes from the high school.

The chain has continued to grow since Kingston was added to the organization. In 1949 a store was opened in Gloversville, and an-

other in Pittsfield. The 10th store in the chain opened in Amsterdam in 1948. Just recently completed was an ultra modern store on the site of the old United States Hotel in Saratoga Springs replacing the former Union-Fern store in that city. The Troy store is being remodeled to accommodate more new departments.

Father of the chain is Joseph Goodman. An immigrant lad from Russia, Goodman began his career in the employ of Joseph Freedman, who operated a furniture store at 154 River street, Troy. By 1899, when Freedman wished to retire, Goodman took over the store from his father-in-law to be, and named the business the Union Furniture Company.

Ten years later Goodman moved the store to the Monument Square site it has occupied since. The name was changed to Union Home Furnishings in 1914. The business had expanded by 1924 so that an annex was constructed in the rear.

In 1920, Goodman became financially interested in the organization of the Fern Furniture Company with stores in Albany and Schenectady. His company took over the management of the Fern stores in 1921.

In 1928, Goodman took over an old department store in Utica and named it the Goodman Home Furnishings. Glens Falls and Saratoga joined the Union-Fern circuit in 1938, when new stores of the Union Home Furnishings were opened in those cities.

The ultimate consolidation of the Union-Fern and Goodman stores into one corporation—Union-Fern Inc.—took place in 1944. Warehouses had been maintained in Albany, Schenectady and Utica. These were merged into one central warehouse in Troy when the company took over the largest available structure in the Capital District—the old Troy Waste Company building. The chain has a fleet of 15 trucks.

Seven Are Killed

Singapore, Sept. 8 (AP)—A motorized junk carrying a cargo of carbide and acid exploded in the Singapore river today, killing the seven men aboard.

Lynch Is Called

gate to the state convention. They have two sons, Walter A., Jr., 29, a former air force captain, and John J., 22, an ensign in the naval reserve.

Lynch stands squarely behind President Truman's handling of the Korean war—a sure-fire target for Republican attacks in the gubernatorial campaign.

In international relations Lynch has supported the United Nations the Marshall Plan and Truman's point-four plan for assistance to our allies.

Domestically, he has urged the repeal of the Taft-Hartley Law, advocated a slash in the 20-percent luxury tax on cosmetics, luggage and similar items and plugged for rent controls.

Lynch was graduated from St. Jerome's parochial school in the Bronx, Fordham University and Fordham Law School.

Richard H. Balch of Utica tapped for the lieutenant-governor nomination is president of Horrocks Libbottson Company, manufacturer of fishing equipment.

He was born in Brooklyn in 1901 and was educated in the public schools of Brooklyn and Utica, and at Williams College.

He has served as chairman of the board of water commissioners in Utica, and is a member of the city board of education. He has served several terms as vice-president of the Utica Chamber of Commerce, and headed Utica's 1948 community chest drive.

Balch, a Presbyterian, is married and has two sons and two daughters. He is chairman of the Democratic City Committee.

investigated further. He made clear, however, that the Democrats could be substituted later for the Liberal nominees if investigation and negotiations showed they were worthy of Liberal support.

The Democratic nominees are: Lieutenant Governor, Richard H. Balch of Onondaga county, Comptroller, Spencer C. Young of Queens county, New York city treasurer, Attorney General, Francis J. D'Amato of Monroe county.

There was some opposition among Liberal delegates to the party's scheduled nomination of the Democratic leaders' choice for mayor, State Supreme Court Jus-

tice Ferdinand Pecora. He is slated for Democratic nomination tomorrow night and for Liberal party endorsement Monday.
